IRFAN MOHAMED S K

BTECH - INFORMATION TECHNOLOGY

A motivated and hardworking fresher seeking an opportunity to learn and grow in a real world environment while supporting my team's objectives with my problem-solving skills and technical knowledge. I am dedicated to working hard in the areas where I am insufficient.

Projects

ON-ROAD RESCUE APPLICATION

- **Role** : Front End and Maps Integration
- **Team members** : 4
- **Description :** Developed a web application to help stranded drivers in unknown and unfamiliar locations by giving them an easy way to contact mechanics and service providers in their locality to get help. The application provides a way for both service providers to increase their scope and for drivers to easily get the help they need.

OPEN-SOURCE SCHEDULING SYSTEM

- **Role** : Front End (Tailwind) & Database (Mongodb)
- **Team members** : 4
- **Description :** Developed a decentralized open scource scheduling system that makes it easier for large amount of clients to scale, customize, integrate custom API's and more. Making it easier for Groups or Organizations to have a specificaly tailored system for themselves.
